

École Elizabeth Barrett Elementary School

2022/23 School Workbook At-A-Glance

Reach out to your child's teacher about your child's specific results.

This Year We Worked On:

- Focusing on using new sources of student achievement data to help us to better plan instruction and interventions to better support our students
- Truth and Reconciliation Action by embedding the language of the 7 Grandfather Teachings through direct instruction, student-led assemblies and student recognition

You Can Help By:

- Supporting our students' learning at home by reading regularly and playing math or card games with your child
- Engaging in your child's learning by accessing the PowerSchool Parent Portal and myBlueprint digital portfolio

Next Year You Can Look Forward To:

- Continuing our focus on how to support our students who are struggling in reading and mathematics
- Using the Positive Behavioural Interventions and Supports(PBIS) framework for supporting students' behaviour, academic, social, emotional and mental health
